

# Integrated Planning & Reporting Toolkit (IPRT)

Tadele Ferede (PhD)  
Macroeconomics and Governance Division  
Economic Commission for Africa

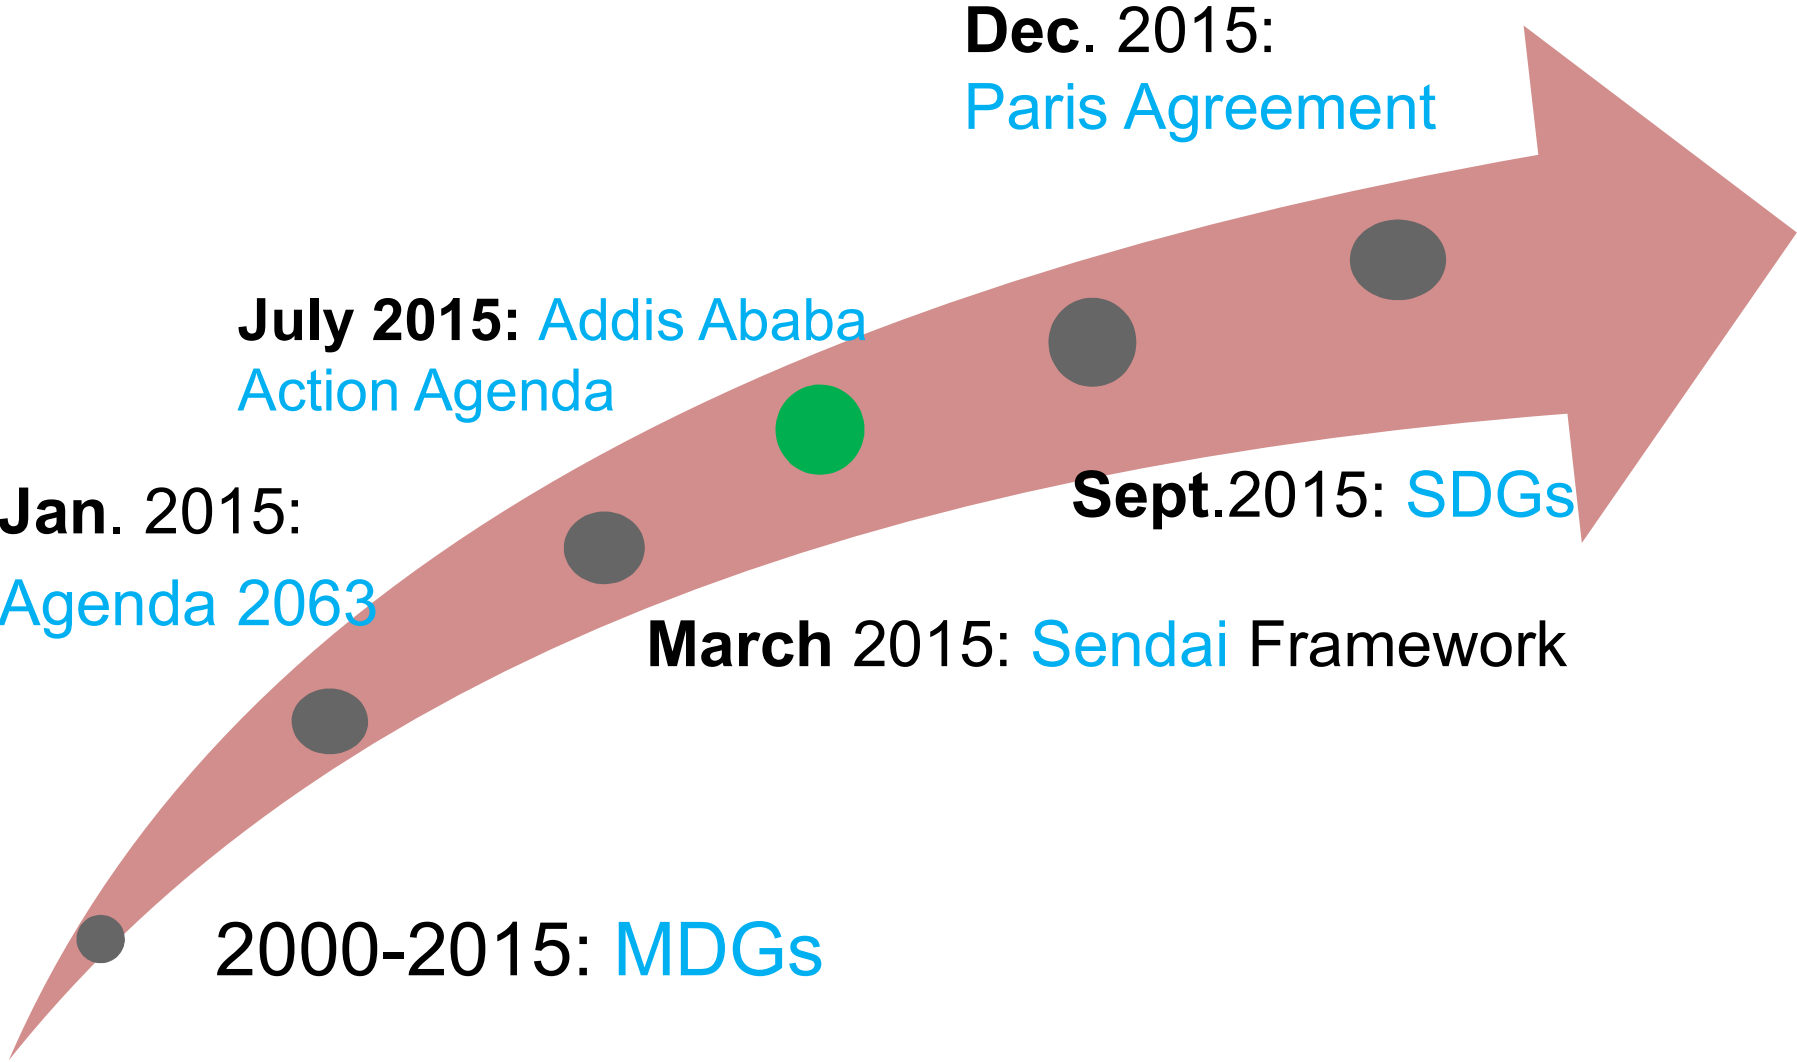

ASDR  
2 March 2021

## 1. Introduction

- African member states have made several **continental** and **global** commitments.
- 2030 Agenda for Sustainable Development Goals
- Agenda 2063;
- The Paris Agreement;
- The Sendai Framework on Disaster Risk Reduction;
- Small Island Developing States Accelerated; Modalities of Action; and
- Others

# Sustainable Development and Financing Frameworks

- Countries are **signatories** to multiple development agendas.
- They need to **simultaneously implement** these commitments.
- In the era of **sustainable development**, **new generation** of development plans need to be:
  - **Resilient**,
  - **Inclusive**, and
  - **Coherent** (both **vertical** and **horizontal**).

- But the **traditional planning approaches and tools** are inadequate to design resilient and inclusive development plans.
- Hence the demand for **new planning approaches and tools** that takes into account continental and global agreements.

### Questions:

- a. Do multiple development agendas speak each other?
  - b. How can these agendas be embedded into national frameworks and harmonize reporting?
  - c. How can countries leverage synergies among multiple development initiatives?
- These questions can be addressed through a **coherent integration** of multiple development agendas into national development frameworks.

- **Horizontal coherence:** Identify linkages among multiple development agendas.
- **Vertical coherence:** Assess alignment between international agendas and national/subnational priorities.
- **Internal coherence:** Are the **goals, targets and indicators** of the NDP interlinked and mutually reinforcing?
- **Prioritization and sequencing:** Where can catalytic interventions have the most impact? Not all interventions have **equal impacts**.

## 2. ECA's Integrated Planning and Reporting Toolkit (IPRT)

- **Mandate:** The 2016 Conference of Ministers (COM) requested ECA & AUC to develop a tool that helps align development agendas at national/subnational levels.
- **Desired attributes** of the toolkit:
  - simultaneously integrates both Agendas into NDPs with features of harmonised adaptation, progress tracking and reporting.
  - provides guidance on integrating multiple commitments and development agendas into national/subnational plans.
  - help understand relationship between different development agendas and commitments.

- What is **ECA's IPRT**?
- A tool that facilitates **alignment/integration** of A2030 and A2063 at goal, target and indicator levels (**Horizontal alignment**).
- **Simultaneously** allows for assessing the alignment of NDPs with both agendas (**Vertical alignment**).
- Assess **degree of alignment** by **sector** and **dimensions**.
- Simultaneously report on the **integration** of both agendas into NDPs.
- **Reports**: Progress review; contributions to VNRs for to the HLPF; Visualization of important aspects of the alignment process.
- **Tracks performance** of NDPs and assess gaps between actual performance and targets.
- **Identify reasons for non-integration**; a basis for providing support.

Attributes	IPRT	RIA	MAPS
Automated?	Yes	No	No
Performance tracking?	Yes	No	No
Integrates A2030?	Yes	Yes	Yes
Integrates A2063?	Yes	No	No
Intelligent Dashboards/Data Visualization?	Yes	No	No
Generates reports?	Yes	No	No

## Concluding remarks

- The toolkit is **flexible** and has **multiple** advantages.
- Allows integration of **multiple** development agendas into NDPs at **goal, target** and **indicator** levels as well as by **sector** and **dimension** of sustainability.
- **Track progress** towards achievement of SDGs and A2063.
- **Harmonized reports** on the extent of alignment.
- Helps **design capacity development programs**.
- Overall, in the IPRT, you find **ALL-IN-ONE!**

# The IPRT

**IPRT**  
Integrated Planning & Reporting Toolkit

Welcome to the  
**Integrated Planning and Reporting Toolkit (IPRT)**

The IPRT is a web application sponsored by the United Nations Economic Commission for Africa (ECA) and developed in response to the needs of African countries to simultaneously adopt and integrate both the 2030 Agenda for Sustainable Development and Agenda 2063 into their national development and enable them to report their progress in a harmonized way.
