Panellist/Speaker

- Alice Mukashyaka- Moderator
- RewirEd Young Researchers from Africa - Ayoub Khanfar
- Charles Mankhwazi-Youth Research Manager- Restless Development
- University of Cambridge Representative
- We Lead/Femnet Young Advocate

Brief

This virtual youth-led side event will bring together powerful young researchers from the Africa region from Uganda, Zimbabwe, Kenya, Rwanda and others to share their insights and recommendations for how to ensure a greener, more inclusive and sustainable Africa. This discussion will explore important intersections between climate justice, gender, education and livelihoods, and look at the opportunities for young people to drive forward progress on the Global Goals and Agenda 2063 in Africa, and globally.

Two recently launched flagship research report recommendations will be shared by young researchers during this event:

- By Us For Us
- The Impact of Climate Change on Youth Livelihoods

Participants at this event will have the opportunity to pose questions and engage in discussion with the youth-led panel.
